Compare with the average reading. Consider asking to recheck the area in three months.</p> <p>Readings above 20% - will identify areas possibly needing remedial work. There may be signs of water ingress or evidence of moisture. Again, it may be worth considering a recheck for three months.</p> <p>Readings above 30% - structural damage may be occurring and deterioration is inevitable.</p> <p><b>COMMENTS AND RECOMMENDATIONS</b></p> <p>411 AREAS TEST GOOD</p> <p>Inspector: CARL SONES Date: 9-5-17</p> <p><b>Disclaimer</b> We would emphasise that the above report accurately reflects the condition of your motorhome at the date stated. ## CMS MOTORHOME INSPECTION FORM

In receiving this form you are automatically agreeing with this acknowledgment. Whilst it would be nice to have a full AA style report and professional habitation check, it is not realistic and we are not trained to do so, so take all descriptions & reports as the assessors opinion only. All of our listed checks were opinion of the assessor before the date of the auction, conditions of the motorhome or caravan are expected to change in that time. Take into consideration fair wear and tear for the age of the motorhome. We do not test heating, gas, electric, water systems or accessories. All motorhomes are driven to the auction unless stated. MOT history & mileage checks are public record for the buyer to do their basic due diligence with. This is a trade auction only and must be treated as such. Bidding is bound by British Car Auction terms and conditions. Please visit <https://www.bca.co.uk> for auction terms and conditions. Bid at your own risk.
